Committee Meeting Details		First Monday of the Month Ross Meeting Room, Ross, 7:30 pm	

Presidents Report

This month the Sub-Centres will be holding their AGM's. See the dates elsewhere in the magazine so go along and support your Sub-Centre an even perhaps put your hand up to join one of the committee's.

The State AGM is to be held on Saturday 26th November at Devonport. There will be several positions vacant on the committee, President, Editor, Secretary and Membership Officer, therefore if you are interested have a talk to any committee person. I have had reports that the social scene around the state is going full steam ahead, now that spring has arrived, with plenty of events.

The weekend just passed was a very busy but rewarding weekend, when the MG Car Club and other car clubs combined to conduct the "Blast from the Past" Historic Race Meeting at Baskerville Raceway. As you can imagine to organizing had taken twelve months with the physical side started to get serious on the Wednesday with the setting up of tents etc. Competitors started arriving on the Wednesday. There was Private Practice on the Thursday.

However, the weather God did not look on us favourably, with a massive downpour of rain all night. All of Friday's events were cancelled as one needed a "bigger boat" to get around the Pit Area. Some cars had water running out of them. Tractors and any other sort of heavy machinery available to remove vehicles / trailers to higher ground.

Another downside was that it was the AFL Grand Final on the Saturday, and the weather was better with occasional showers, with this there was still quite a good crowd on the hill. Sunday was a boomer, the "hill" had a good crowd, considering the wet and slippery conditions for parking on the hill. The weather was kinder to us. The racing was good and the patrons seemed to especially enjoy the racing of the "muscle" cars and the "spirited" demonstration laps with some cars from the past, ie Bruce Gowans restored Celica. Hopefully the remainder of funds required to resurface the track will be reached.

Each year we learn more on how to improve the event and make in more streamline. The Historic Committee will be having a debrief meeting in the near future, then start planning the 2017 event.

I would like to thank all those members who came from far and wide to help and support this event, doing whatever they could to assist over the 3 days.

Happy MGing
Regards

Zube

Ed Says

Here we are at the end of another club year, hasn't that year gone by so fast. As we get older time appears to pass us by so much faster, we are looking forward to something happening and OMG it has already happened. And of course you have to realise that there is a scientific reason for this and it is called relativity.

When you were 1, a year was 100% of your life, when you were 2 a year was 50% of your life and so on. Now if you are 60, a year is only 1.67% of your life, when you get to 80, a year is only 1.25% of your life, that is why it goes by so fast.

You just cannot argue with the Maths!!!, this is why you should never believe statistics.

On a more serious note, AAM's and AGM's are the focus of all the administrators of our club, get along and have your say, stand for a position and just be part of it. Full details of our AGM weekend in Devonport is on the centre pages. Concours on the picturesque foreshore of the Mersey River will be a magnificent site, so someone had better talk to Marg B about ordering some good weather.

Speaking of the Bannons they are currently in Bathurst attending the Bathurst 1000, Greg is in heaven amongst the petrol heads and even stood in line for nearly 2 hours to get an autograph from a Volvo driver (James Moffat), I think 5+ months in the northern sunshine has had a detrimental effect of his mind, can't wait to get him back home to boost his MG and Ford mojo to fight off those other marque germs.

Speaking of Fords, who could not appreciate Andrew Mediecke's Ford Capri and his driving over the weekend. The car was perfectly presented and he drove it like he stole it, really taking the challenge up to the more credentialed Torana's. From my position in the starters box, I could see him pushing harder and harder into turn 1 and all I could think was please don't bend it. I had a quick chat with Andrew after the event and he was very happy with the "Little Car" and was looking forward to coming back to Baskerville again.

I said to Sue-Anne, I think the racing committee is trying to tell me something, but I am not quite sure what? so she took this silly photo. Now the problem with this is, it was our little laugh, or so I thought, until it popped up on facebook referring to me as the Michelin Man.

Now I ask you, where's the likeness, really!!!

I think I will have to negotiate my own deal with a more suitable advertiser next year!!!

If you were astute last month, you would have realised that I cut short the Editors report last month, that's what happens when it's late and your tired, you make dumb mistakes.

Ed.

Membership Report

All members should have received their renewal notices last month, please take the time to correct any car or personal details that may be incorrect.

The club is ever evolving and the MGCC of Tasmania, like many other MG Clubs has become more about our cars and socialising rather than competition. To this end there are many members who enjoy club functions and outings with their partners who are not paid up members of the club. If you are one of those members who has single membership and you and your partner enjoy the activities of our club, then please think about upgrading your membership to joint membership, The upgrade would normally be an impose of **\$30.00**. But for this year to encourage our single members to take on joint membership where applicable, it will only cost you **\$20.00**, and you partner will still get a badge.

Please indicate on your renewal if you wish to take this offer, providing details of your partner so they can be entered in the database.

Club Captains Report

Our motorkhana club day that was scheduled for 7th of August at Bothwell, but was cancelled due to the bad weather and very wet conditions. Will now be held at Symmons Plains on the skid pan Sunday November the 13th, this event is not part of the state Series it is a club event. Full details can be found in this magazine.

Historics Report

Well what an amazing weekend we have just experienced. From the rain on Friday causing absolute mayhem in the pits. To the great racing and public support on Saturday and Sunday. Another year has been completed, and hopefully most people are happy with the weekend, we cannot control the weather, we can only make the most of the opportunities.

One person who did just that, was club member John King who competed in his ex Dave Dungey / Geoff Dodge MGB. John recorded a 1st and 3rd place in the Mark Sports Car Regularity and had such a great time he wanted to have it known through the magazine.

PAST EVENTS

15th September – Evening run to Franklin for fish and chips combined with a Poker Run. Due to the temporary closure of this establishment at late notice, the run was cancelled.

30th September- 2nd October – Baskerville Historics. – If you had been there on Friday you would not have believed that the event could possibly been held. But with the dedication of many volunteers the pit area and track were restored to a position where this was possible. It proceeded relatively smoothly given the new set of circumstances that were thrown at us which goes to prove that “the show must go on”. More news on this event as the dust (er-water) settles.

COMING EVENTS:

11th October – Annual area meeting, Southern Sub-Centre in place of our usual Tuesday evening meeting for the election of office bearers for the coming year. If you want to be involved in the running of the club please put your hand up now!

Club Meeting Details		Last Wednesday night of the Month: 7.30 pm for meeting. VCCA Rooms, 67 Lawrence Vale Rd, Launceston	
Postal Address		P.O Box 682, Launceston, Tas 7250	

On the 14th of September eighteen members converged on Steves Grill in Bathurst St. for dinner. Considering the inclement weather it was an excellent turnout. The meals were great, reasonably priced and most of all hot. Can recommend this venue for anyone visiting Launceston. (Note, this is not a paid advert).

Saturday coffee run weather wise was very much like the previous outing, assorted showers, but it didn't detour 27 members. The run went via the West Tamar highway out to Legana then on to Bridgenorth and Selbourne to Frankford ending at the Blue Berry Barn cafe. Some minor repairs were required on a certain Mini's electrics after which we all went our separate ways.

Brian R.

One of the major events on the competition calendar, the Baskerville Historic Race Meeting was run over the weekend.

Don Fraser, Peter Richards and myself entered and left early Thursday 29th to set up and be ready for qualifying on the Friday.

MG Car Club of Tasmania – MG Monthly Motoring News, October 2016

Friday started out wet but as the morning moved on the Baskerville Historics turned into the Baskerville Aquatics as the heavens opened up flooding the main straight and the bottom side of the pits area was knees deep in water.

As a result many cars were flooded and needed to be removed from their garages or parking area and it was a sad start for those involved in organising the event.

Qualifying was suspended for the day as the water in the pit area breached the tyre wall and a sizeable river cut a water course through pits.

Not to be beaten qualifying was commenced early Saturday in the wet and other than “skid pan alley” in the pits the reason we were there was underway.

The weather gradually improved and we were able to have some almost dry runs.

However on leaving on Saturday night the previous day’s rain had made the competitor car parking area a quagmire which was too much for the Isuzu and I needed to be towed out.

Don Fraser came to my rescue and as a result he suffered the same fate and we eventually were towed out by a young fellow with enormous mud tyres and made our dinner booking at about 7.30 pm that night.

All makes and configurations of vehicles suffered the same fate that night and a very large four wheel drive tractor came to the rescue until it too became bogged, but that’s another story.

Sunday proved to be a good day and we had mostly dry runs with lots of close racing, in some cases too close, with around 4500 spectators filling up the hill.

The same fate awaited the spectators on leaving as had happened to me the previous night and the confusion was eventually returned to order

However there was as much fun in the competitor’s trailer parking area on Sunday night with lots bogged at the entry point to the paddock so traffic was held up and we were late getting away from the track.

Angela and I chose to chance the trailer park and entered via another gate. We were able to retrieve our trailer with much slipping and sliding but maintained the pace across the paddock and up a hill and made sure that I was pointing down the hill when we stopped to put the trailer on.

We eventually got the MG loaded on the trailer and thankfully we did not suffer the previous night’s fate.

Congratulations should go to the organisers for a good event under very trying circumstance and thankfully the spectators were not put off by the weather.

However next year I think we will hire a tracked vehicle with a garage on the back to park the car and provide shelter from whatever weather is thrown at the event.

Club Meeting Details		Second Thursday night of the Month: 6.00 pm for meal and social evening. Bridge Hotel, Forth	

Daylight saving is here and so is the continued very ordinary weather. The Baskerville Historics have been run and won (was that a submarine I saw floating by?) To the diehards who braved the conditions - well done, to the others that didn't front (myself included) lets just say that it was really nice rugged up with the fire blazing and the Grand Final blaring. The Victorians I spoke to still had fun and I am told they will be back again next year. Again, well done to all involved.

Last month's run was organised by Colleen & Terry. An all MG event. More of that later elsewhere.

No-one has volunteered to run this month's event so there is nothing in the pipeline.

Next month's event is to be run by John & Dawn.

Saturday 5th November 2016

Leave Forth Hotel 9:30 am. Coffee Stop on the way.

Lunch Stanley Hotel Numbers required couple of days before.

RSVP John Irving, 0417 538 012

November's major event here is of course the Concours, AGM and presentation dinner. Details elsewhere.

December is fast approaching with M & M again hosting our NW Xmas get together. The date is Saturday Dec. 10

If you can pick yourselves up off the rumpus room/garage floor, on Sunday Dec. 11 we are joining with our Northern colleagues for the combined Xmas get together. This will be held in the Port Sorell area. More on that in next month's mag.

'till then

"ZED's rule"

An Afternoon Casual Countryside Drive 18/9/16

The rained stopped, blue skies appeared and ten (10) members in six (6) MG's departed from the Don Railway carpark at approx. 1.30 pm.

Our hour and half drive took us along the byways, up and down valleys from Wilmot Road, Forth through Paloona to Eugenana, thru Tarleton Road, (where we noted two happy Bulldogs in the RSPCA Kennels as we passed by!) to Latrobe, then wandering along the back roads, through the rich red soil farms of Sassafras to Squeaking Point and

finally arriving at our destination “**Ghost Rock**” Winery where we all enjoyed each other’s company over coffee or wine and a selection of Ghost Rock platters.

Wendy and Tony were the only couple to guess our destination correctly in our fun Quiz - their prize – “Bottle of Red”.

Sun still shining, we departed our own ways about 4.30pm.

Members attending were:

NON-DESTRUCTIVE TESTING SERVICES

Mechanical, Structural, Automotive crack testing & condition assessment of all ferrous and non-ferrous materials

Mechanical components are subjected to stresses in service from dynamic and static loading, temperature changes and corrosion resulting in cracking which can remain undetected visually until there is a catastrophic failure. This can be accelerated by exceeding design loads, inadequate maintenance or remaining in service in excess of the lifespan intended by their designers.

The correct NDT method applied according to strict guidelines by a trained and certified technician can detect cracking in metallic structures, welds, castings and forgings before they are large enough for the part to fail in service.

For advice and applications talk to **Chris Blake** to discuss your requirements large and small, I have tested everything from wheel studs to Hydro turbines. Full reporting provided to Australian Standards, I am certified to AS3998/ISO9712 with the Australian Institute of Non-Destructive Testing (CB# 4679) and carry full public liability insurances.

The Funny Bone

A first grade teacher tells her class that she is American and asks them to raise their hands if they too are also American,

All of the hands explode into the air like flashy fireworks, except one girl named Kristen.

The teacher asks why she has decided to be different

"Because I am not an American" the girl replies

"Then, What are you?" asks the teacher

"I am a proud Canadian," boasts the little girl

The teacher is a little annoyed now, her face slightly red.

She asks Kristen why she is Canadian?

"Well, my mon and dad are Canadians, so I am Canadian too." she replies

The teacher is now angry. "That's no reason, What if your mom was a moron and your dad was a moron. What would you be then?"

"Well." says Kristen with a little hesitation "I'd most likely, be an American!"

A month after Donald McDonald started at Harvard, his mother called from Scotland,

"And how are the American students, Donald?" she asked.

"They're so noisy," he complained, "Once neighbour endlessly bangs his head against the wall, while another screams all night."

"How do you put up with it?"

"I just ignore them and play my bagpipes.

One afternoon whilst visiting the local library, I noticed a group of pre-schoolers gathered for story time. The book they are about to read as "There Was An Old Lady Who Swallowed a Fly." After the librarian finished the first page she asked the children,

"Do you think she'll die?"

"Nope," a little girl in the back called out. "I saw this on 'Fear Factor' last night"

The little boy wasn't getting good marks in school.

One day he made the teacher quite surprised.

He tapped her on the shoulder and said.....

"I don't want to scare you, but my daddy says if I don't get better grades..... somebody is going to get a spanking....."

On the way home from the first day of school, the father asked his son, "What did you do at school today?"

The little boy shrugged his shoulders and said, "Nothing".

Hoping to draw his son into conversation, the father persisted and said, "Well, did you learn about any numbers, study certain letters, or maybe a particular color?"

The perplexed child looked at his father and said,

"Daddy, didn't you go to school when you were a little boy?"

A young child asked a woman how old she was. She answered, "39 and holding."

The child thought for a moment, then said, "And how old would you be if you let go?"

SQUARE RIGGER NOTES

All Pre War, T and Y Type MG's.

Congratulations to the Organising Joint Committee and the many volunteers for the running of the Baskerville Historic Race Meeting held last weekend despite the hurdles. Here are some of the T Type competitors, the TC Special of John Caire and Peter Richards' TF Special, both in fine company! At one stage the TF Special looked like a mud splattered gymkhana entrant, without any untoward excursions as experienced by other competitors over the weekend!

Some of the T and Y Types in the viewing area with one of those organisers and the owners making sure the cars are lined out correctly, also in good company. No photos included of the rains and flooding but there are plenty floating around if you would like to search. And note the Square Rigger influence with nearly blue skies for the Sunday.

The two remaining Square Rigger events for the year are not far ahead, a run for Sunday 23rd October in the north and confirming the extended tour commencing Friday 11th November to the Sunday based at Swansea. Details of each will be published in coming days with particular attention for those attending Swansea to be confirmed.
